TECHNICAL SKILLS

Proficient in Data Structures and Algorithms along with Design concepts

- **Languages:** Java, Scala, Python, SQL, PL/SQL, Groovy
- **Backend & Architecture:** Spring Boot, Microservices, REST APIs, Akka, Hibernate, JPA, Design Patterns
- **Data & Storage:** PostgreSQL, MySQL, Oracle, MongoDB, DynamoDB, Liquibase (Schema Management)
- **Event Streaming & Search:** Apache Kafka, Elasticsearch, OpenSearch
- **Cloud & DevOps:** AWS (EC2, DynamoDB, CloudWatch), Docker, Kubernetes, Jenkins, CI/CD Pipelines, YAML
- **Build Tools:** Maven, sbt, Gradle
- **Version Control:** Git (GitHub, Bitbucket)

WORK EXPERIENCE

Member of Technical Staff III

Omnissa LLC | Bangalore | Nov 2024 - Present

- Rapidly adopted LLM tooling and established best practices across teams, including prompt engineering, agent rule frameworks, and token optimization strategies to improve efficiency and output quality.
- Built and scaled microservices in the security domain to deliver near real-time notifications to clients using event-driven architecture.
- Owned feature delivery end-to-end as an individual contributor, from requirement clarification and design discussions to implementation, testing, and production rollout.
- Diagnosed and fixed high-impact production issues (including Kafka timeout-related crashes), improving service reliability and reducing incident risk.
- Drove cross-functional execution by working closely with product managers and partner teams to define scope, review designs, and deliver stable releases on schedule.
- Improved service quality through stronger testing, code quality checks, and operational monitoring practices.

Software Engineer II

Cisco Systems | Bangalore | May 2022 – Nov 2024

- Scaled a Scala-based microservice to support higher tenant density by redesigning state handling and key partitioning.
- Reduced startup time and sped up deployments through configuration optimization.
- Led migration from in-memory storage to PostgreSQL with Liquibase-based schema versioning.
- Improved system stability by reviewing critical design/code changes and fixing recurring production issues.

Application Engineer

Oracle | Bangalore | Sep 2021 – May 2022

- Built and maintained backend modules using Java and PL/SQL for enterprise workflows.
- Improved release quality by streamlining test execution and fixing defects earlier in the cycle.

Application Engineer

Wipro Limited | Bangalore | Jun 2019 – Sep 2021

- Contributed to internal application development and production deployments.
- Supported bug fixes and incremental enhancements that improved reliability and user experience.

ACHIEVEMENTS

- **Received appreciation for quickly ramping up on new technologies** and making impactful contributions shortly after joining the team. (Omnissa)
- **Promoted within the organization** for demonstrating exceptional technical skills, ownership, and consistently delivering high-quality work with the highest rating. (Cisco)

EDUCATION

B. Tech in Information Technology

Haldia Institute of Technology | West Bengal | Aug 2015 – Jun 2019 | CGPA: 8.25
